<b>GENERAL ADMINISTRATION</b>	

### **POLICY IMPLEMENTATION**

The Superintendent has responsibility for carrying out, through administrative regulations, the policies established by the Board.

The policies developed by the Board and the administrative regulations developed to implement policy are designed to promote an effective and efficient school system. Consequently, it is assumed that all Board employees and students will willingly carry them out.

There are activities that are common to all classes and school levels but procedures for conducting them may vary from time to time. Principals will establish procedures for conducting activities within their individual areas within the larger framework of administrative regulations and Board policies.
